

ALL-STAR NOMINATION GUIDELINES

- **You must be a current NCCA Member and a head coach in the sport to make an All-Star nomination. If you are a head coach but only hold Associate status with the NCCA, you may ask your school's athletic director or a competing Member head coach to make the nomination for you.**
- **Before making a nomination, you should first ask the player if they will agree to participate *fully* if chosen as an All-Star. *If they cannot or will not attend, please do not nominate them.* The NCCA Board of Directors has passed a regulation stating that a coach whose player de-commits in the two weeks prior to the beginning of all-star practice will lose the privilege of nominating for the next year.**
- **By nominating a player, you are suggesting that he/she is one of the best in the state in their sport based not only on their outstanding athletic talent, but also on their good character. Remember, he/she will be representing his/her family, high school, and community.**
- **NC/SC BASKETBALL: The player should be among the top 15 in North Carolina.**
- **EAST-WEST FOOTBALL: If a player has signed to play at any college level, you should first check on whether they will be required to attend summer school. Generally, most Division I signees will not be released to play in this All-Star game, but there are occasional exceptions.**

- **EAST-WEST BASKETBALL:** The player should be among the top 25 in the state OR top 15 in their East or West region.
- **EAST-WEST SOCCER:** Please check on the timing of regional competitions or Olympic development before nominating a player.
